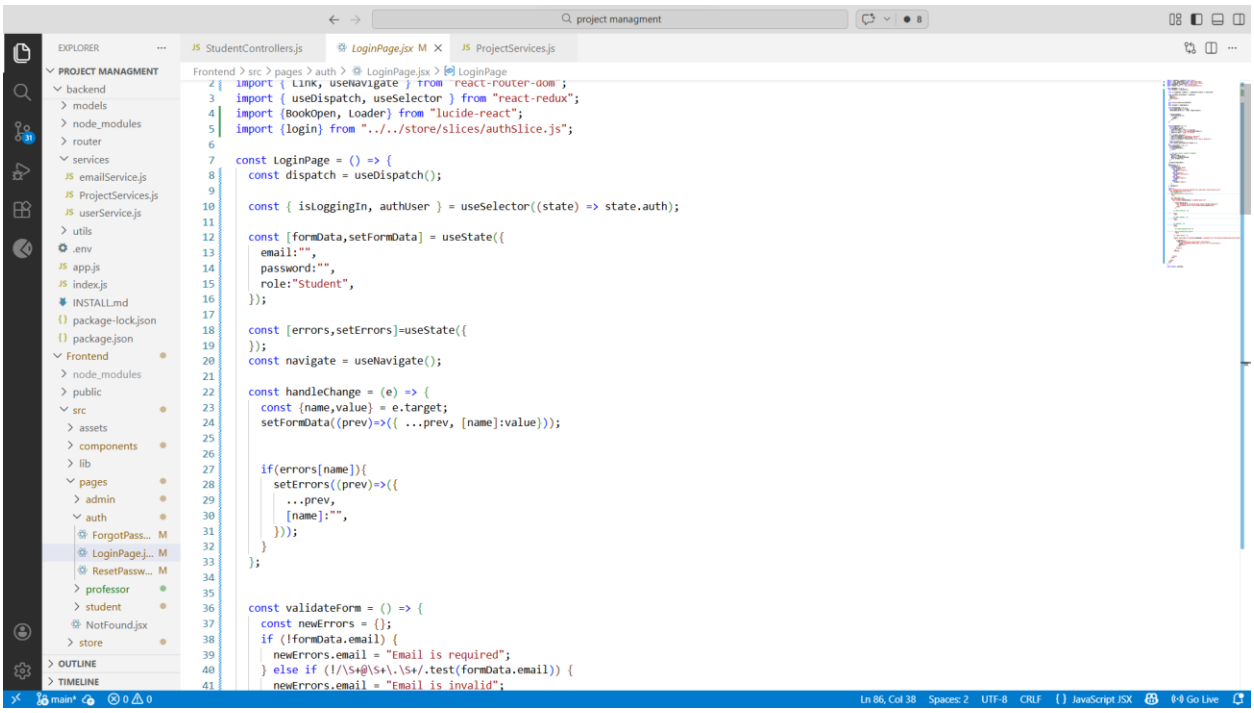
Weekly Report of Internship

Uni-Track Project Management:

During the Fifth week, I make login authentication with role based, email via, password to login and sign In.

Concepts Learned:

Learn to make various pages, like login page, forget password and reset password with email authentication and reset password link share to via email.



- Login page to login with email, password, and role with JWT token with completely authentication.

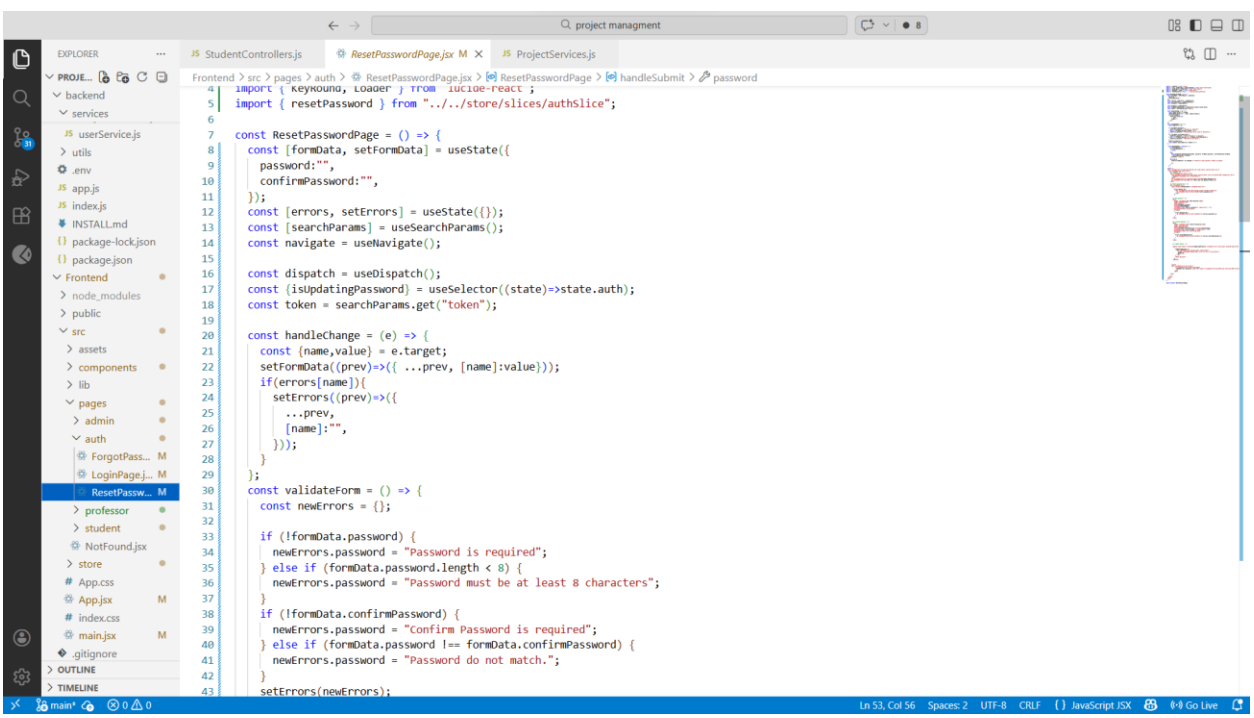
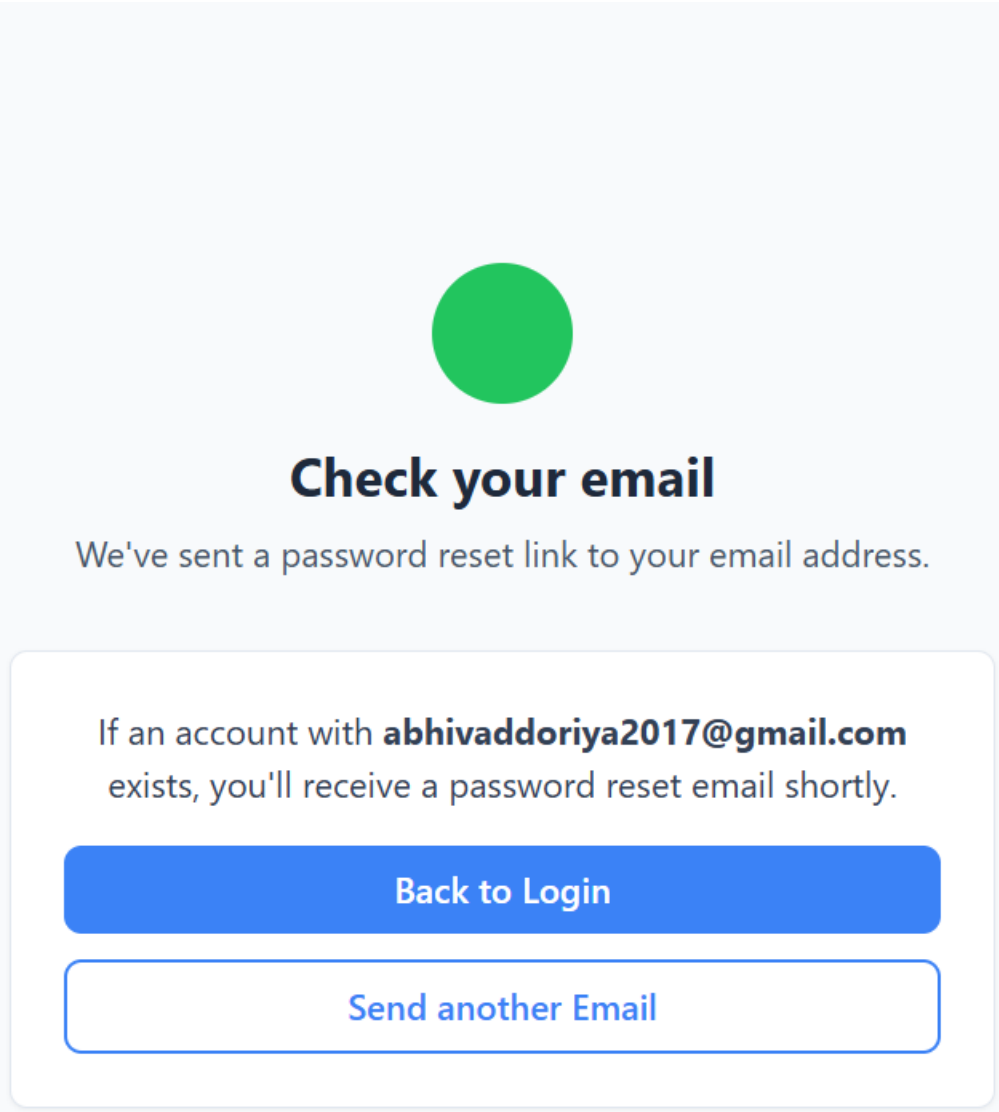
- This forget page to we forget password with sent reset link via email.



This reset password link achieved in email and we reset password their.



Conclusion:

This ways we learn login, forget, and reset password link and completely authenticate with JWT token.
